Company Profile

Computing Solutions Leaders – CSL was founded on 2004 by Sharon Chen. The company Offices located at Maskit St. Hertzelia Pituach, Israel.

CSL's goal is to provide our customers with the highest quality computing solutions based on our un-compromised commitment for quality. Our customers see us as a solutions provider as well as their "Trusted Advisors". CSL Management and employees strive to excel in their business, technical and personal conduct. Our constant growing satisfied customers' base is the indication of our success in doing so.

The company provides SW development, consulting and education services in the SW infrastructure, as well as storage and data backup analysis and configuration in the MF and open system environments. We employ MF and open system infrastructure experts. Thus the company can operates in the following areas of expertise:

- Software solutions development for the MF Environment
- Consulting and education in the relevant areas of expertise (MF Infrastructure, SW development, Strategic and Tactic management of Large data centers)
- Planning, Installing, customizing and tuning of MF OS including storage subsystems.
- Architecting DC configurations, servers and the storage subsystems.
- Performance Measurement and Capacity planning of the MF environment.
- Consulting and leading DRP efforts vis-à-vis the customer specifications and needs

We provide focused consulting and trouble shooting services in the z/OS, z/VM and z/Linux environment as well as long-term experts consulting services for these OS infrastructure and Storage Subsystems.

Among our customers and business partners are some of the leading business and companies in the Israeli market: IBM Israel, Israel Electric Company (IEC), Isracard, John Bryce and Blue Education, CA Israel, Bank-Leumi, MATAF, MOD, Mechish, Ness Technologies and Corbiz. On our customers list are some of the largest development firms as well: Mercury, Attunity, Surecomp, SPL, SUN, Aduva, Log-On, MOST, Optier, Bsafe Solutions.

The company has a proven record in teaching IT classes in the relevant areas of expertise. Our leading team of experts is well known and appreciated lecturers in trade shows and seminars by organization such as SHARE, CA, IBM, EMC and John Bryce.
